

HIGH PRECISION FLOWMETER

Excellent cost-performance.
Compact and lightweight.
Simple and durable structure.
High chemical resistance.
Applicable medium: diesel or chemical (adblue) liquid.

● TECHNICAL SPECIFICATION

Power volt:3-12V DC

Output signal:Pulse voltage

Pulse unit: 0.46ml/p

Accuracy:±2%

Max.working pressure:0.5Mpa

Flowrate range:5-50L/h

Connection:1/4" or 1/2"

Material of rotor and casing: PPS Resin

Material of O-ring:NBR / FKM

Material of Shaft:SUS304/Sic
