

AUTOMATIC NOZZLE WITH FLOWMETER

N-LLY-S series automatic nozzle with flowmeter (abbreviated as oil-filling gun) is a meter used to measure the volume flow rate of liquid passing through the pipe. It can operate normally within the pressure from 0.18Mpa to 0.3Mpa, and gather the measurement function and automatic function in one.

● TECHNICAL SPECIFICATION

Product Type	N-LLY-25S
Inner Diameter (mm)	20
Outside Diameter(mm)	24
Min.Flow Rate(L/min)	25
Rated Flow Rate(L/min)	35
Max.Flow Rate(L/min)	60
One-time Count Range(L)	1~9999
Precision	± 1%
Applicable Media	Kerosene, Diesel and Gasoline
Max.Pressure	0.3Mpa
Carton dimension(cm)	52×49.5×45.5
Package	10pcs/ctn
G.W/N.W(kgs)	18/16.5
