

ELECTRONIC MANUAL NOZZLE WITH FLOWMETER (TURBINE)

Turbo type electronic manual nozzle with flowmeter has the trait of High accuracy and modularization design. Module design can be used with output module. sensor and long distance transfers. The features of the display: 2cumulants (1 resetting,1 accumulating);optional unit conversion of gallon and liter. It is easy to change the spare parts inside, and easy to maintain. It's easy to assemble as its compact design. Lithium battery, can supply 9000 hours power .

● TECHNICAL SPECIFICATION

Product Type	N-DLY-25W
Flow Rate(L/min)	5-60
Repetition	≤0.2%
Precision	± 1%
Applicable Media	clean oil
Max.Pressure	0.3Mpa
Carton dimension(cm)	50 × 38.5 × 45
Package	10pcs/ctn
G.W/N.W(kgs)	15/12
