

Mega - Series One Nozzle

300/500 LPM

The new Mega series high flow dispenser, in line with the latest super flow rate fueling requirements, will exceed your requirements through design innovation and the use of selected, best in class components and peripherals. Indication of weight or volume for your option.

Technical specifications:

Ambient temperature	-40~50
Flow rate	300/500
Minimum measure	30/50
Measure accuracy	±0.15 ,by weight ; ±0.25 ,by volume
Power supply	220
Hose	1
Fuel type	Diesel
Communication Interface	RS-485
Средняя наработка на отказ, ч	12000
